Dear Examiner:

**Amendment After Allowance
 under 37 CFR §1.312**

In response to the Notice of Allowance Dated June 3, 2010, and at the subsequent request of the Primary Examiner, the Applicant requests the entry of certain amendments to the claims, to wit:

Claim 25 should read: "wherein said charging node comprises a Customized Application for Mobile network Enhanced Logic (CAMEL) Service Control Point (SCP) ..."

The amendment is needed to correctly state the name of the service control point recited in Claim 25. The proposed amendment does not require additional search or examination because it merely corrects a typographical error. Also, support for the proposed amendment can be found in paragraph [0139] of the present Specification.

The claims are patentable because the proposed amendment does not change the scope of the claim previously determined to be allowable in the notice of allowance dated June 3, 2010. The proposed amendment was not presented earlier because this is the first opportunity Applicant has had the opportunity to present the amendment.

Respectfully submitted,
/ Ronald S. Liu; Reg. No. 64,170 /
